- PricewaterhouseCoopers (PwC)
- Anthem, Inc.
- Orange County Board of Supervisors
- Direct Relief
- Deep Space Systems

“The choice to pursue my master's degree at Pepperdine was influenced by my desire to participate in a program with a rigorous qualitative and quantitative approach under some of the most highly esteemed faculty in their field. The strong guidance of faculty and staff mentors throughout my experience in the Master of Public Policy program continues to foster a unique relationship that positively influenced my transition into the workforce. Pepperdine afforded me the opportunity to gain the skills necessary to successfully and confidently perform my duties as a research associate at the Hoover Institution at Stanford University.”
